

# Making Coloring Pages for Patients

*Thanks for donating your time and talent to make coloring pages for potential TelePlay engagement! Follow the guidelines below to create your own fun page and submit via the instructions below!*

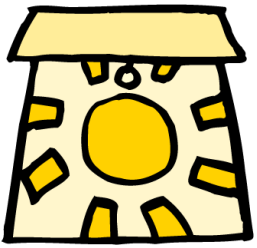

## Guidelines

1. Our medical facilities serve a wide variety of ages, so it's always helpful to have a range of submissions. We love creative, relaxing examples (like the hearts and stars page below) and patients always love animals or characters. You can also use clipart to create a fun picture search, like the beach puzzle page below.
2. Feel free to use design software, Microsoft paint (like the flower/bee page below), or even drawing on paper and scanning into your computer.
3. Please don't include any "get well soon" messages- this is for the patient to creatively express themselves and spend some time feeling like a kid for a portion

## Ready to submit?

To submit your completed coloring pages, email [ccumberland@projectsunshine.org](mailto:ccumberland@projectsunshine.org) with your design!

**Still have questions? Email [ccumberland@projectsunshine.org](mailto:ccumberland@projectsunshine.org) for more information or other ways you can get involved!**
